Description: 3ds Max 2005, Inventor 2005, Revit Architecture 2005 is a 3D modeling tool from Avid that can create 2D or 3D images from scratch. This is a versatile software which can import 3D models, textures and materials from different sources to create animations, visualizations and simulations. Inventor 2007 is integrated with 3ds Max, it is easy for Inventor designs to be reviewed in 3D visualizations and other design tools. 3ds Max gives a realistic view in animations and simulations. 3D Max, Inventor, Revit Architecture, are the applications from Avid that creates professional 3D images, visualizations, animations and simulations. They are used for different industries like architecture, industrial design, engineering, manufacturing, home design, and others. This software is easy to create and edit 3D models. AVID combines 3D animation, motion graphics, visual effects, and design and 3D solutions to create a holistic 3D workflow. Avid have been long-standing leaders in the visual effects industry. Many of the top visual effects films and television shows in the world are created using Avid software. The 3D Max family of products give you a better visualization of your 3D model as well as make it easy to explore and manipulate the details of your models. These include 3ds Max, Inventor, and Revit Architect. 3ds Max is a 3D modeling application for creating 3D meshes, materials, images, animations, and models. The 3ds Max family of products give you a better visualization of your 3D model as well as make it easy to explore and manipulate the details of your models. Imagine you are visiting the medieval times. You can now visit the life of the Middle Ages. To visualize the Middle Ages, you can either create 3D models using 3ds Max, Inventor, Revit Architecture or you can visualise a story about the Middle Ages with a video editor. Create your own experiences or dreams with Avid and 3D Max in your own way. Avid Software is helping you build a better future.
